

# **Individual Project Sprint 1 Retrospective**

**Cleyton Shelton**

# Purpose

- Moved around a lot in the past year, so I haven't unpacked many boxes
- Moving again in May to Louisville, so no point to unpack
- Needed a good way to track what's in each box without having to write all over each one (more than I have already)

## Goals Met for Sprint 1

- Able to add new box
- Add photos to the boxes
- Clean UI
- Box detail page
- Dark Mode

## **Numbers (Total)**

**Total LoC:** 847

**Number of features completed:** 5

**Number of requirements completed:** 5

**Burndown rate:** 83%

## What Went Wrong

- Couldnt get QR codes to work
- I had too many unneeded features in my head
- Had to restructure my data model a few times

## What Went Well

- Adding a box is easy for the user
- New features are easy to add
- Clean UI

## Sprint 2 Goals

- Searching for a box
- Edit a box
- Delete a box
- Filtering
- Favorite boxes
