

# QR Storage App - User Manual

## Overview

Box Storage App helps users manage physical storage boxes using auto generated box numbers.

Users can add, view, edit, delete, and search boxes.

# Features

## 1. Home Screen

- Lists all storage boxes
- Search filter by title, description, or location
- Tap a box to see details

## 2. Add Box

- Form fields: Box Number, Title, Description, Location
- Save button to store new box

## 3. Box Detail

- Shows box info
- Options to edit or delete box

# How to Use

1. Open the app
2. Add a new box via the **Add Box** button
3. Fill out the form and tap **Save**
4. Return to Home Screen to see the new box
5. Tap a box to view, edit, or delete

## Notes

- Location is optional
- Box numbers are auto generated
- Search is case-insensitive
